Alex Rivera

MANUFACTURING & PROCESS ENGINEER

Results-driven manufacturing engineer with 9+ years optimizing high-volume production lines in automotive and heavy industry. Proven record of cutting cycle times, scaling automation, and leading cross-functional teams to deliver measurable cost savings.

EXPERIENCE

Senior Manufacturing Engineer

2020 – Present

Apex Automotive Systems 📍 Detroit, MI

- ▶ Redesigned the body-weld line layout, lifting throughput by 22% and eliminating two bottleneck stations.
- ▶ Deployed 14 collaborative robots across three shifts, cutting manual handling incidents by 40%.
- ▶ Led a \$3.2M capital project on time and 8% under budget.

Process Engineer

2016 – 2020

Great Lakes Steel Works 📍 Cleveland, OH

- ▶ Applied Six Sigma DMAIC to reduce scrap rate from 6.1% to 2.3%, saving \$740K annually.
- ▶ Standardized SPC dashboards adopted plant-wide across 5 lines.

Manufacturing Engineer

2014 – 2016

Precision Tooling Inc. 📍 Toledo, OH

- ▶ Programmed and validated CNC processes for aerospace-grade components, holding tolerances within ± 0.01 mm.

KEY ACHIEVEMENTS

- 🏆 Won the company-wide “Operational Excellence” award (2022) for the weld-line automation program.
- 📈 Cumulative documented cost savings of \$1.9M across process-improvement initiatives.
- ⚙️ Filed 2 patents for fixture designs now standard on the production floor.

EDUCATION

B.Sc. Mechanical Engineering

2010 – 2014

University of Michigan, Ann Arbor
